30 Years and Still Going Strong!

Sounds like an ad for the ever-ready battery. It is actually a description of one of our fantastic teachers who, this year, celebrates 30 years of service to the Cathedral School. Phyllis Steech began her time here as a 2nd Grade teacher, spending a few years as a Reading Specialist, and for the past 8 years as the Cathedral School's Resource teacher. There are not many people who have remained at one school for their entire teaching career like she has, but everyone who has ever come into contact with her is grateful she has stuck around all those years. Her understanding of how students learn and her special ability to bring out the potential of each student she teaches is amazing. She is a no-nonsense person who holds students accountable for their work at all times. She also serves as our "teacher of teachers" as she shares her insights and expertise with all of our teachers to improve their skills as well. On Wednesday following the Music Program, join us as we celebrate Phyllis Steech!

PATIENCE: Waiting until later for what you want right now.

Waiting can teach goal-setting and hard work. What if you decided today to go out and run a marathon? You can't just go out and do it. This is true of any skill in any sport. It's also true of skill on a musical instrument. And it's also true in education. This month, teach your child that sometimes patience means training more than it means waiting, actively working toward the good thing that is to come.

ICCS PARENT SURVEY

As part of the re-accreditation process, we need our parents, students, and community to evaluate our school's performance as it relates to academics, discipline, and various other benchmarks. Since several emails were not received, you are encouraged to go to <http://tiny.cc/iccssurvey> to complete the survey. Responses are due by **Mon, May 24th** in order for your student to be eligible for the T-shirt day on Wed, May 26th. Thanks for caring enough to share your opinions.
